Mr Damien Codognotto  
President M.R.A. (Vic)  
M.R.A. House.

FITZROY, 3065

Dear Damien,

It is obvious to a motorcyclist who has been involved in dealings at a State or Federal Government body level that there is a gradual tightening or regulation and attitude toward motorcycling in general in this country.

Looking after the interests of motorcycling at the moment seems to be a group of associations with no common denominator apart from the motorcycle itself.

Although the Motorcycle Industry Division realizes there are areas of business where any consumer and industry group cannot agree due to their own interests, the M.I.D Executive Committee feel that there is a need to discuss policy and attitude toward areas of common problems. In that vein the Executive Committee should like to invite the Management Committee of M.R.A. to discuss these matters at their earliest possible convenience.

Looking forward to your earliest reply.

Yours faithfully,

A handwritten signature in dark ink, appearing to be 'JR' or similar initials.

John Redding  
Manager  
Motorcycle Industry Division.
