Mr. Codognotto,

My apologies for the delay in getting this information to you. I won't bother with the reasons as I'm sure you have already made up your mind that there is something untoward being developed.

A.

I know that I told you that I would provide ALL information as requested but I have thought about the 4 hour phone call that we had on August 2nd, and some of the veiled threats that you made towards me and the 4B's.

The situation is as follows. You require the DETAILS from the cheque account for accounting purposes, so there is really no need for you to have possession of the books themselves. I have photocopied the cheque stubs and written an account of all deposits into this account. If your whizbang treasurer requires any further details, then you know where to contact me.

B.

Secondly, the horror sheets. I could see no point in defacing the original sheets at this stage, nor could I see any point in handing them to you, defaced or otherwise. The 4B's still require the use of these sheets in our ongoing work. I have supplied you with a copy of the sheets for the years of 1989 to 1992.

C.

It had slipped my mind that when I was at Vicroads doing the photocopying, that I had run out of time to get the 1993 sheets copied. I am starting to get some sheets from patients with hardwired bikes coming in. I shall get the '93 sheets copied as soon as I am able. As the Hardwired bike sheets come in I shall endeavour to get these copied separately and post them
